

# RICKY RINALDY

Software Engineer (3+ YOY)

082281884743 • <https://cv-ricky-rinaldy.vercel.app/> • <https://linkedin.com/in/ricky-rinaldy/> • Palembang (ready to relocate)

## Summary

I'm a Software Engineer with over 3 years of experience. Over the years, I've built mobile apps that actually make business operations smoother—mostly focusing on ERP, Sales Order management, and Business Automation.

It's never just about writing code. It's about figuring out how that code solves real bottlenecks for the company.

Here is what I usually do to help businesses run better:

- Making apps feel good: I spend a lot of time optimizing performance. Whether it's fixing UI lag or implementing lazy-loading for massive datasets, I make sure the internal teams get a seamless experience.
- Connecting the dots: I smooth out complex workflows and data syncs so that daily operations are faster and more reliable.
- Hardware integration: I have hands-on experience connecting mobile apps with external devices, like thermal printers, and tying them securely to backend services.
- AI integration: I've built apps that leverage AI features like face recognition and license plate recognition to automate manual processes and make data entry much faster.

My daily drivers are Flutter, Dart, REST APIs, and Firebase. Right now, I'm also developing with Spring Boot and Full-Stack JavaScript so I can build better, end-to-end solutions.

I'm always open to chatting about new opportunities (Remote / Hybrid / Onsite).

## Experience

### Freelance | Self-Employed

Jakarta, Indonesia

#### Freelance Flutter Developer

05/2025 - Present

Flutter Developer focused on building scalable, high-performance mobile applications for business operations.

- Improved application performance and maintainability by refactoring and optimizing existing Flutter codebases
- Reduced UI lag and enhanced user experience on complex transaction screens
- Increased data reliability by improving synchronization and error handling mechanisms
- Built and optimized sales order workflows for daily operational use
- Implemented lazy loading to efficiently handle large datasets
- Improved data accuracy and real-time synchronization
- Refactored legacy codebase to improve scalability and performance
- Fixed critical bugs and enhanced system stability
- Integrated REST APIs for seamless backend communication
- Developed multi-printer support using Wi-Fi and LAN
- Automated document printing workflows integrated with backend processing
- Implemented face recognition using Google ML Kit and TensorFlow Lite
- Built OCR system to extract data from images
- Optimized on-device ML model performance for mobile usage

### PT. Evo Nusa Bersaudara

Palembang, Indonesia

#### Software Developer

02/2023 - 04/2025

Worked as a Software Developer focusing on mobile and desktop application development for internal business systems.

- Developed ERP mobile applications used for internal operations
- Improved application performance and maintainability through code refactoring
- Enhanced real-time communication using Firebase (Authentication, Firestore, FCM)
- Increased system reliability by fixing bugs and optimizing data handling
- Built Flutter-based mobile applications with focus on performance and scalability
- Integrated REST APIs for real-time data processing
- Implemented push notifications using Firebase Cloud Messaging (FCM)
- Debugged and resolved application issues to ensure system stability
- Built internal business applications with CRUD operations and reporting features
- Optimized SQL queries for faster data retrieval
- Developed Crystal Reports for operational and analytical reporting
- Supported business decision-making through structured data analysis

## Experience

---

PT. Evo Nusa Bersaudara

Palembang, Indonesia

Flutter Developer

12/2022 - 02/2023

- Assisting with features in Flutter for the 'Stock Opname' application
- Adding an obscure feature
- Adding a switch button feature
- Creating pages that consume provided APIs

Skylar Digital Creative

Palembang, Indonesia

Website Builder | IT Support

10/2019 - 05/2021

Website content creator for the affiliate internet marketing business(Amazon).

- IT Support
